Mustang Mach-E Regional Showings

The 2021 Ford Mustang Mach-E Tour is visiting Ford dealerships. Get your first in-person look at the new all-electric SUV from Ford.

Those who missed the Ford Mustang Mach-E in Sacramento have more opportunities. The Mach-E Road Tour will be visiting other towns. Check with the Ford dealership in the city for the event you find interesting.

Date:

- Stockton Big Valley Ford, Tuesday, November 17

EV Related Webinars

EVs certainly are fun and save money, plus, there's an exciting journey in discovering more about them, their impact, and how they're changing the world for the better. SacEV brings you a list of upcoming EV related presentations. In case you missed one, here are pointers to the recordings.

International EV Strategies & Programs

Tuesday, November 17, 9:00am

Multiple countries have passed the one million sales milestone with EVs. What lessons can the US learn from international transportation electrification efforts? The electric transportation industry is growing worldwide and many countries are incorporating new policies and setting ambitious electrification goals.

In this webinar, Forth will be joined by international counterparts accelerating the adoption of EVs in their counties. Our speakers will highlight projects, strategies, and organizations doing work to advance transportation electrification. They will provide key lessons from projects, policies, the impact of COVID-19, and how all are adjusting.

Electric Vehicles Beyond the Road: A Demonstration & Discussion

Tuesday, November 17, 1:00pm - 2:30pm

EVs have a significantly wider array of use cases beyond passenger cars. This 90-minute session will highlight EVs that are not typically seen on the road, including forklifts and neighborhood electric vehicles. A discussion with both users and manufacturers of this equipment will highlight real-world applications.

Building Equity into Climate Action!

Wednesday, November 18, 12:00pm to 1:00pm

The climate is changing in Sacramento and it's impacting our neighborhoods and lives. We've experienced hotter than normal summers and increased bad-air days, while nearby communities are devastated by more frequent and extreme wildfires.

Learn what Sacramento and community organizations are doing to address climate related issues and about Climate Action Plans (CAPs) at this event hosted and sponsored by Community Resource Project, Sierra Club Sacramento, Environmental Council of Sacramento, 350 Sacramento, and Citizens' Climate Lobby, Sacramento. More information [here](#)

Join us to learn:

- What exactly is a Climate Action Plan?
- Why is it important to the long-term health of my community?
- How can I participate and make my voice heard?

Busting Common Myths about EVs

Canada Talks Electric Cars Webinar Episode #6. Excellent webinar by an EV and utility knowledgeable speaker.

Recorded: November 3

—continued next page—

EVs are all over the headlines these days and a lot of questions are raised about how EVs can fit into an individual's life, a business's fleet, or how they fit into our broader energy system.

Aren't EVs too expensive?

Can an EV get me where I need to go?

What about in the cold?

Are EVs really "green"?

Won't our electric grid collapse if everybody switches to an EV?

We'll dive into these questions and address some common misconceptions that sow unwarranted doubt about the transition towards electric mobility.

What's brewing with CAISO's markets and grid operations (Clean Coalition)?

Recorded: November 10

The California Independent System Operator (CAISO) called rolling blackouts throughout California on 14 and 15 August and threatened blackouts over Labor Day weekend, alleging a lack of sufficient electricity to serve Californians during those heat waves. CAISO's recent preliminary root cause analysis, published on 6 October, raises myriad questions about the operation of CAISO's markets in contributing to the blackouts.

EV Related Policy and Administration Updates

Recorded: November 10

How will the result of the November election affect the transportation industry, charging infrastructure, federal incentives, and efficiency mandates? Smart transportation policies intended to increase the adoption of smart transportation have historically included legislated tax breaks, fleet acquisition incentives, manufacturing incentives, and authorizations for research and development. We examined what the future holds following the election.

Join the National Electric Auto Association

Join other SacEV members as national Electric Auto Association members, you are joining the national grass-roots community advocating for EVs in the USA. The national EAA is critically important to SacEV as it handles our administrative chores (tax filings, non-profit status, banking service, insurance, legal help, etc.) and provides value, such as webinars and the two nationwide events: National Drive Electric Week and Drive Electric Earth Day.

Your SacEV leadership team relies on these services, so we encourage you to join the national organization for the small sum of \$35 annually. You will also be able to keep current with the latest developments in the rapidly changing world of electric vehicles in our regular Current Events e-blog. This blog is full-color, available 24/7 on-line from your desktop, laptop, smartphone, or however you access the internet.

Your membership provides value to you, our local SacEV chapter, and you become a member of this critical national movement. **Please join [NOW](#).**

More SacEV Events Are Coming Up

Check the [SacEV calendar](#) for the latest EV-related activities.

If you've missed a Newsletter and for more information about the Sacramento Electric Auto Association visit our [website](#).
