Display, Ride & Drive from 10 am - 7 pm

### Come to the largest Northern CA Ride & Drive.

National Plug In Day is a nationwide event drawing global attention to the environmental, economic, patriotic, and other benefits of plug-in electric vehicles through events staged in cities nationwide.

Plug In America, Sierra Club, Electric Auto Association, SMUD, Nissan USA, and owners of plug in cars team up to demo the enjoyment and fun of driving plug-in electric vehicles. Talk with owners of electric vehicles and hear what the cars are like to live with in the real world. Everything you want to know, including solar, chargers, & utility discounts.

Then hop in a brand new plug-in electric car from area dealerships and feel how exciting it is to drive!

*Own an EV today. No Compromises.*

*See, touch, sit inside, and \*DRIVE these plugin electric vehicles*
