Local Tesla Blog

Eli Blanton, CSUS Graduate

March 17, Saturday

Sacramento Raceway

5305 Excelsior Rd.
(South of Mather Field, off Jackson Rd.)

Noon to 4 pm
Gates Open at 10 am !!!!

ALL vehicles with electric plugs, even PHEV invited to come
and PLAY!

Tesla vehicle drivers will need an approved helmet (most good motorcycle helmets pass); Ludicrous level Tesla drivers further need a “fireproof jacket.” SMUD has donated for a set of “loaner jackets” available from G. Parrott at the Raceway. **Worst case cost is \$50** for car & driver, but a **negotiation for a “club discount”** is underway.

Cars already confirmed:

Model S P100DL

Model S P90DL

Model S P85DL

Model S 75D

at least 1 MODEL 3 !!!!!

Note: Unless Tesla drivers ASK, I will TRY to set it up so a Tesla NEVER goes against another Tesla. One of the goals of these appearances is to clearly show ICE drivers that “electric is better.” So clear demonstrations of how quick and smooth EVs run vs. (ancient) ICEs is a major purpose...and getting “hard data” on how quick is YOUR personal EV, of course.
